Welcome to Dolpopa Art Galleries,

Featuring the work and thoughts of Brian Ezzell

The title of this website is to honor the Buddha from Dolpo. Much is still being learned and written about this influential Being and we want to be a part of spreading his teachings.

It is our feeling that Dolpopa's teachings on the "Emptiness of Self-Nature" and "Emptiness of Other" are at the very core of all artistic expression. They are the goal.

Dolpopa Sherab Gyaltzen, "identified ultimate reality as the Buddha-nature inherent in all living beings." Buddha-nature can be found in people, flowers, landscapes, and animals. Anything and everything can be used as a subject for art and it is up to the person creating the art to find and show the Buddha-nature in the subject. It is Buddha-nature that attracts us to any one thing, including art.
